Decision on Priority areas

- All service areas have workforce challenges
- Focus on where cross cutting initiatives may bring benefits
- Tangible outcomes in shorter timeframe

Priority areas

- 1. Apprenticeship Academy for Oxfordshire across Health and Social Care - Led by Juliet Anderson (HETV)**
- 2. Recruiting Emergency Practitioners (ECP, ENP). Joint recruitment, joint training and rotation - Led by Melanie Saunders (SCAS)**
- 3. Portfolio careers in Primary and Community Care - Led by Anne Brierly (OH)**

Oxford Apprenticeship Academy - 1

PRIORITY

Objectives:

- To assist in the transformation of the local workforce
- To establish sustainable health/social care cross-organisational apprenticeship rotations, in the first instance a cohort of 10 to rapidly increase
- To support 17-24 year olds (with flexibility to incorporate 24+s) to access a career in Health and/or Social care in the Oxford area
- To provide apprenticeships to national standards, with positive outcomes for learners.
- To recruit using values based recruitment.
- To establish a partnership way of working across the system.

Benefits sought:

- Improve apprentice recruitment and retention within Oxfordshire by offering an opportunity to experience a range of cross organisational training.
- Increased numbers of apprentices entering Oxford's health and social care system.
- Increased visibility of the "Oxford" brand and academy to employers and potential learners.

Oxford Apprenticeship Academy - 2

PRIORITY

Actions:

- Develop a partnership arrangement with an Apprenticeship Training Agency (ATA).
- Establish rotational programme, including clinical governance & supervision
- Survey the Social Care/Health sectors to identify/ get commitment from employers on numbers of apprentices/ placements required
- Review the project regularly

Timescale:

- Rotations and training placements governance for cross-organisational sign-off by end August 2016
- Rotations commence either September 2016 or January 2017

Increase Emergency Practitioner Placements

PRIORITY

Objective:

To increase emergency practitioner training placements and rotations to meet demand for this workforce across all urgent / emergency settings

Benefits sought:

- Develop workforce to deliver ambulatory and out of hospital urgent care;
- Extend medical / nursing / AHP skill mix for urgent care
- Offer post-registration career progression (nursing & AHP) and improve recruitment and retention

Actions:

- Establish rotations programme, including clinical governance & supervision
- Develop increased training placements (ambulance, acute, community and primary care), including mentors / assessors
- Develop “offer” to staff

Timescale:

- Rotations and training placements governance for cross-organisational sign-off by September 2016
- Rotations and increased training places commence January 2017

Nursing and Therapy Rotations

PRIORITY

Objective:

To establish cross-organisational / setting registered nursing and allied health professional rotations

Benefits sought:

- Develop clinical skills along pathways of care
- Improve recruitment and retention within Oxfordshire
- Develop the “Oxfordshire Way”

Actions:

- Establish rotations programme, including clinical governance & supervision
- Harmonise terms & conditions (including indemnity) to enable rotations programme
- Develop “offer” to staff

Timescale:

- Rotations programme ready for cross-organisational sign-off by end of July
- Rotations commence September / October

Challenges

- Housing / Keyworker status – coordinated voice to lobby
- Oxford Weighting – what's in our gift to change?
